ABOUT Reata comes from the Spanish word for lariat and lasso. Just as lassos are woven together, our wines are sourced from exceptional vineyards and woven together by our winemaker.

TASTING NOTES This food-friendly Chardonnay shows juicy, fresh fruit aromatics and flavors of apple blossom, honeydew melon, guava and grapefruit zest. The creamy texture and rich flavors of toasted oak are framed by a bright acidity that lifts the fruit and leaves a lingering finish that will keep you wanting more.

WINEMAKER Linda Trotta

WINEMAKING Every year, our winemaker hand-selects vineyards from celebrated microclimates. Typically, more than 50% of this wine is barrel-fermented, goes through MLF and receives fine lees stirring. This integrates the toasted oak notes and creates a rounder, creamier flavor and texture. The residual malic acid adds crispness.

THE ICON ROCK

SAUVIGNON BLANC

APPELLATION Aconcagua, Chile

VARIETAL BREAKDOWN Sauvignon Blanc

ABOUT The Aconcagua Valley, located on the east side of Chile's Aconcagua region, is one of the country's four main wine-producing regions. Stretching 60 miles long, the valley lies between the Andes in the east and the Pacific Ocean in the west. The altitude creates a unique climate, with warm, dry land heating up in the afternoon, causing hot air to rise and pull in cooler ocean air from the west. This process reverses, cooling down the land in the evening. These daily breezes help to balance the hot climate and keep the vines thriving in the region.

TASTING NOTES This wine greets with aromas of gooseberries and key lime. Crisp and refreshing on the palate, the wine leaves a lasting impression with vibrant acidity and a concise finish.

WINEMAKER Johnson Scutt

WINEMAKING Grapes are hand and machine harvested in the early morning to maintain freshness and flavor, then crushed and destemmed. The juice is settled and fermented in temperature-controlled stainless steel vats with a specific yeast strain at 52–57 °F for several weeks. The wine is blended with other parcels, “racked off” yeast lees, and filtered.

SAUVIGNON BLANC

APPELLATION Marlborough, New Zealand
VARIETAL BREAKDOWN Sauvignon Blanc

ABOUT The soils in the Wairau Valley and the wine-growing districts surrounding Blenheim are primarily free-draining alluvial gravels. The valley is situated between the Richmond Ranges to the north and the Wither Hills to the south, which protect it from extreme weather conditions. These two factors make the valley ideal for viticulture. The climate is usually sunny and warm in summer and autumn, resulting in a long growing season, and the cool night-time sea breezes provide the temperature variation required for good characterful wines. It can also be very dry, and younger vines often require some degree of irrigation.

TASTING NOTES This Sauvignon Blanc exudes enticing aromas of guava, green apple, and a whisper of passion fruit. This wine is simultaneously bone-dry and rounded on the palate, offering a refreshing experience.

WINEMAKER Johnson Scutt

WINEMAKING 100% machine-harvested grapes are collected early in the morning to preserve freshness and flavor. They are crushed and destemmed, then fermented in temperature-controlled stainless steel vats with a specific yeast strain at 52–58 °F for several weeks. The wine is blended with other parcels, “racked off” yeast lees, and filtered.
