2020 FIREPEAK PINOT NOIR

THE EDNA VALLEY

The coolest growing region in all of California, as cited in a study by Southern Oregon University, the Edna Valley is a mere 5.4 miles from the Pacific Ocean. Consequently, the extended growing season allows grapes grown here to develop intense and complex varietal flavors, while achieving optimum maturity levels. Known as the “Dirt of the Devil,” the soils in the northern portion of the valley are also unique. As Islay Hill is the most southern sibling in a chain of extinct volcanoes known as the Seven Sisters, volcanic remnants are combined with clay loam and rocky marine sediment, offering a distinct mix of nutrients and good drainage.

TASTING NOTES

Exemplifying the vivid excellence of the Edna Valley, this Pinot Noir bursts with expressive dark fruit notes, currants and blueberries, along with a hint of vanilla and cherry cola. The wine has a brilliant acidity that is balanced by notes of ripe cherry and structured by soft, supple tannins that lead to a long, memorable finish.
