HARVEST NOTES

The 2021 growing season was mild from heat perspective and saw very limited rainfall in the winter and spring. Due to this limited rainfall yields were low, but the fruit that blossomed turned out to be beautifully concentrated and balanced. A mild heat wave in early September helped develop ripe, juicy flavors, and fruit utilized in this wine was picked over the course of mid-September.

SOURCING NOTES

99% Russian River sourcing, multiple growers and clones utilized.
