

PROUDLY MADE IN THE USA  
New 2026 • Test Launch in Texas & Georgia

Citizen Republic is inspired by the enduring American spirit — bold, hardworking, and unapologetically proud. Rooted in the ideals born in 1776, the brand celebrates the makers, growers, and everyday people who take pride in what they build and where they come from.

At the center of the brand is Maverick, the Citizen Republic eagle and modern patriot. A symbol of confidence, independence, and American pride, Maverick represents the belief that great wine doesn't need pretense — it just needs to be proudly American. His bold gaze and aviator shades nod to American icons, from pilots to everyday heroes.

Drawing from iconic American symbols — the eagle, stars, and stripes — Citizen Republic stands for quality you can taste and authenticity you can trust. Approachable yet confident, this is American wine built for today: flavor over pretense, authenticity over artifice, pride over pedigree. More than a wine, Citizen Republic is a modern expression of American identity — one perfectly suited for backyard gatherings, patriotic moments, and America's upcoming 250th anniversary.

CABERNET SAUVIGNON
