

WELL REaD

California • Red Wine

USDA ORGANIC

Less than 0.1% of wines in the U.S. wine market can be considered USDA Organic.*

NO ADDED SULFITES

As with all USDA organic wines, our Well Read wines contain only natural sulfites occurring from the fermentation process. Technology today can pick-up very small trace amounts of natural sulfites in wine, therefore we are no longer able to make the claim that our sulfites are “non-detectable”.

TASTING NOTES

Well Read Red Blend is perfectly balanced, filled with black cherry and blackberry flavors leading into a hint of toasted vanilla.

FOOD PAIRING

Our Red Blend is a lighter style wine that pairs well with a variety of dishes. Grilled soy-glazed wild salmon over basmati rice or a spinach and leek frittata are excellent pairings.

Alc: 13%
